

The junior professorship **Public Health Nutrition** (Prof. König) investigates a range of determinants of eating behaviour and tests digital and choice architecture (nudging) interventions to promote healthy lifestyles. Starting from 01.01.2022 we are seeking to fill the positions of

## **two student assistants**

**for 20 hours per month.**

A long-term contribution to the research activities of the group incl. the opportunity to write a Bachelor/ Master thesis is intended. The positions are best suited for students of the degree programmes Food and Health Sciences (Lebensmittel- und Gesundheitswissenschaften, B.Sc. and M.Sc.), Food Quality and Safety and Global Food, Nutrition and Health.

### Your tasks:

- To contribute to ongoing research projects in the group
- To support data collection, data pre-processing, and data analysis for online, laboratory and smartphone-based studies
- To prepare study materials
- To conduct literature searches

### What we are looking for:

- Interest in empirical research and current topics in Public Health Nutrition and the psychology of eating
- Very good knowledge of English or German, but not necessarily at the level of a native speaker
- Conscientiousness and precision
- Knowledge of MS Office software
- Good communication skills, flexibility and the ability to work as part of an international and interdisciplinary team

If you have any questions please do not hesitate to contact Prof. Dr. Laura M. König, [laura.koenig@uni-bayreuth.de](mailto:laura.koenig@uni-bayreuth.de). Please email your application (letter of motivation; CV; transcript of records if available) in **until 14<sup>th</sup> November 2021 one PDF file** to [laura.koenig@uni-bayreuth.de](mailto:laura.koenig@uni-bayreuth.de).
